Allowable Subject Matter

Claims 1-2,4-10 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: With respect to independent claim 1, the prior art of record does not disclose nor teach a reflector defining two focal regions, one focal region being an internal focal region and the other being an external focal region, the reflector having a defined surface of an approximate ellipsoid; a light source located in said internal focal region in such a way as to produce a pool of reflected light in said external focal region; and a lens in front of said external focal region for converting said pool of light into a beam and for projecting said beam forward from the light unit, and wherein the filter is opaque to visible light and transparent to only infrared light, in combination with the remaining aspects of the claim. Since the prior art of record does not disclose nor teach this aspect, independent claim 1 and dependent claims 2, 4-10, which also incorporate this aspect, are deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
